CHAIRMAN'S MESSAGE

St Luke's ElderCare started its operation in 1999 in response to the need for good rehabilitation and social services. There were very few eldercare centres then. We started our centres and developed a good model of care for rehabilitation and social day care services. We wanted to provide a model of care for the elderly that would benefit them physically, mentally, socially and spiritually. At the same time we hoped to provide relief for the family while they were at work knowing that they could entrust their elderly to our care during the day. The mission then was to meet the need for more holistic care for the elderly.

Over the years, our mission and vision have been refreshed but our core beliefs have remained. In our new mission, we seek to enrich the lives of the elderly together with our partners in the community. Our new mission will continue to guide us in what we do as we continue to improve our care for the elderly.

St Luke's ElderCare straddles between the Community Hospital on one end, and the Nursing Home or the residence of the elderly clients on the other. Elderly who pass through St Luke's model of care can look forward to a co-ordinated care; from St Luke's community hospital to St Luke's Eldercare Centres; from inpatient care to outpatient care and home care; from day rehabilitation care to social day care.

I want to take this opportunity to once again thank a few groups of people. I would like to say a big thank you to our community partners, grassroots leaders, sponsors, donors, church partners, corporate partners, volunteers and dedicated staff: thank you for your dedication in serving the elderly and in journeying with us in this ministry. You have a great impact on all our clients. You give them the opportunity to try something new, gain new experience, develop new skills and meet new people. We believe that volunteering is a two-way process and I hope that in the process of your giving to the elderly, your lives have also been enriched.

I also want to take this opportunity to thank Professor Lee Hin Peng. After serving St Luke's as its Chairman for eight years, Professor Lee retired and stepped down as Chairman of SLEC in 2014. He has made valuable contributions to SLEC and I thank him for his many years of sterling service. I would also like to express my appreciation to Associate Professor Tan Wee Liang who has retired after five years of service on the board of directors. I also want to welcome Mr Lee Chee Yeng who was recently elected to the position of Treasurer.

There is still much to be done in the years ahead. We have begun the renovation of all our centres as many of them have been around for many years. New centres will be added. New services are being introduced. In addition to day rehabilitation services and day care services, we have begun to provide home nursing, home medical and community nursing services from a few of our centres. We will continue to build breadth and depth as we serve the ever increasing needs of our aging population. It is our aim to help the elderly clients who are under St Luke's care to live well, age well and age with dignity in the community. Thank you for continuing to grow alongside us as we seek to enrich the lives of the elderly in the communities.

May God Bless You Abundantly,

Timothy Teo
Chairman
Board of Directors
St Luke's ElderCare

CEO'S MESSAGE

Following the launch of our mission, vision and core values in 2014, we proceeded to develop our strategies and model of care. We have begun to implement several pieces of our strategies.

Our model of care comprises six elements, namely: Caring for the whole person, respecting our patients, providing individualized care, coordinating our care and engaging our clients. In our implementation of our model of care, we remained focused on delivering care at the heart of the community.

In our delivery of care, we partner with volunteers as well as various service providers in the community. Our partners include other ILTC players, corporate entities, grassroots organisations, churches, as well as individual and group volunteers.

Last year, we partnered with the Parkinson Society of Singapore to train our staff and equip them with basic skills to serve our clients who have dementia. We also partnered with Alexandra Health to offer healthy soups

to senior citizens in the neighbourhood. Additionally, our community partners supported us in fundraising, providing volunteers, organizing outings and visits, and other diversion therapy programmes, both within centres and outside the centres.

We also initiated community-based nursing services at our Changkat, Clementi and Telok Blangah Centres. As part of helping the caregivers of our clients to cope with the stress associated with providing care, we started offering weekend respite services at Yishun and Changkat Centres.

Another key part of our strategies is to build up our own internal capabilities to enhance our services and find new and innovative ways to deliver our services. Last year, we invested in our IT software and hardware to enhance the front end operation interface with our clients as well as to support the back of office operation. We embarked on renovation programmes for our centres to improve the facilities as well as convert our centres to Senior Care Centres. Tampines, Clementi and Ayer Rajah Centres will be the first three centres to undergo renovation. We have also developed and begun in house training to systematically train and

upgrade our staff so that they are well equipped to manage challenging cases at our centres.

I am very proud of the team we have at St Luke's ElderCare. Last year, our staff won awards in recognition of their commitment and dedication in providing quality care to our clients. Ten of our staff won the Excellence Award in Healthcare for the intermediate and long-term care sector.

I would like to take this opportunity to thank those who have journeyed with us and we invite you to continue to do so. Special thanks to our volunteers, church partners, schools, caregivers, service providers as well as individual and group volunteers. We greatly appreciate your dedication and partnership. You have helped us provide compassionate holistic care for our clients. As we do so together, we hope we will help each and every client in St Luke's to enrich his or her life in the communities.

Thank you.

Lim Hock Chuan
*Chief Executive Officer,
St Luke's ElderCare*

**Centers with Senior Gym Facilities
for Wellness Programme*

DELIVERING CARE AT THE HEART OF THE COMMUNITY

As part of enabling the elderly to age well within the communities, we work towards a holistic overview of care, through partnerships with the community, an individualised approach and coordination in delivery of our services.

To provide more client-centric services and for greater care coordination, we initiated **community-based** nursing services at Changkat, Clementi and Telok Blangah Centres to make it easier for our elderly to access preventive healthcare services. The nurses provided basic health services such as blood pressure and blood sugar monitoring. Basic health education was also conducted to increase awareness of common elderly health concerns such as strokes, cholesterol management and mental wellness.

Caring for the elderly cannot be a task that is undertaken alone. In providing care at the heart of the community, we have also partnered with the Parkinson Society Singapore for our **Parkinson's** programme at the Bukit Timah, Changkat, Telok Blangah and Yishun centres. The project started in August 2014.

For the well elderly, fostering independence enables ageing well within the community. The **OTAGO Falls Prevention** Programme, implemented at our centres, has helped our clients to become physically stronger and to continue doing the activities that they enjoy. One such example is Mr Tan Cow, a 78-year-old day care client at St Luke's ElderCare Whampoa Centre, who was functional but initially resistant to the idea of joining the OTAGO programme. After several sessions, his perception changed and found benefits in doing the exercises. He has not only gained greater physical strength, enabling him to travel independently to the centre; he's even able to continue with activities he loves, like cha-cha dancing with his peers.

DELIVERING CARE AT THE HEART OF THE COMMUNITY

Beyond caring for the elderly at our centres, St Luke's ElderCare also recognizes the need to support those looking after an elderly loved one at home. Without adequate support, caregivers who already experience stress and fatigue may burnout. To help relieve the burden of caregivers and their families, we rolled out the **Weekend Respite Services** at Changkat and Yishun Centres. The respite programme is conducted on Saturdays from 9am to 3pm and comprises physical and social activities such as games and craft work to engage the elderly.

Community outreach projects like the **"Soup-tember – Share-a-pot"**, in collaboration with Alexandra Health, was also piloted at Yishun centre. Aimed at improving the nutrition for seniors living in the area, this project hoped to link volunteers and community partners to perform community outreach services, via preparation, cooking and serving hearty bowls of soup (or a nutritious meal equivalent) to seniors in the neighbourhood.

ENGAGING OUR COMMUNITY

Through inclusive programmes, we maintain and grow ongoing partnerships with supporting churches, schools, healthcare providers, corporations, grassroots and community organisations to create and run activities that engage the elderly.

A. THROUGH FUNDRAISING

An inaugural event jointly organised by St Luke's Hospital and St Luke's ElderCare, the **Dymon Asia - St Luke's Appeal Luncheon 2014** was held on 31 July at the Fullerton Hotel. Kindly sponsored by Dymon Asia Capital, Ambassador-at-Large at the Ministry of Foreign Affairs, Professor Tommy Koh complemented the event by being our Guest-of-Honour.

During the luncheon, Professor Koh also spoke about the values of philanthropy and volunteerism, which we could embrace to benefit the underprivileged in our society.

Close to 200 guests attended the event. The amount raised allows us to continue providing quality care to our elderly patients and clients.

St Luke's Love & Share Hongbao

Donation Drive 2015 saw an unprecedented number of supporters from various schools and churches. Our ministry is blessed to receive the donations which will greatly benefit our elderly patients, clients and their families.

ENGAGING OUR COMMUNITY

B. THROUGH VOLUNTEERISM

i. With School Partners

Inter-Generational Games Programme 2014 with Chestnut Drive Secondary School

The third IGG was conducted by Chestnut Drive Secondary School on 23 May. The student-led event comprised a variety of activities that are elderly-friendly to accommodate the needs of our clients. These include the chair exercises, the iPads, the ball games, the Kinect X-boxes, and most of all, karaoke singing, a favourite activity of our elderly at the centres.

Inter-Generational Games Programme 2014 with Bendemeer Secondary School

Our partnership with Bendemeer Secondary School began in January 2002 with student trainings. It has since evolved into an annual intergenerational games programme. In this year's edition, students put up an exciting performance in a specially choreographed song and dance. Elderly clients from the centres also participated in a karaoke competition.

Chinese New Year Lunch with Paya Lebar Methodist Church & Students

In line with our nation's SG50 celebrations, the school held a Chinese New Year lunch banquet for the elderly to share in His favour and to also acknowledge the contributions of our Pioneer Generation. This lunch, generously sponsored by Paya Lebar Methodist Church, had welcomed the aged community from National Kidney Foundation, Society for the Aged Sick and St Luke's ElderCare Hougang and Serangoon Centres.

To make this a more meaningful event, this year's lunch was organized and hosted by the entire staff of Paya Lebar Methodist Girls' Secondary School, supported by 120 students from Secondary Four and Five classes. 40 staff members and elderly residents were invited to join in this joyous occasion.

Performances at the Centres

Students from Clementi Primary School played Aung Klung string performance to bring entertainment to the seniors.

ii. With Church Partners

River Safari Outing

Volunteers from Paya Lebar Methodist Church and Trinity Methodist Church brought our elderly from Serangoon and Hougang centres on a day out to the River Safari. Close to 300 elderly, family members, carers, volunteers and staff attended the event that took place on 16 July.

There were plenty of smiles and wide-eyed stares when the group visited exhibits like the Mississippi River, the Wild Amazonia and the giant pandas that were on display.

CNY at the Centres

80 elderly clients and 16 staff from the social day care and day rehabilitation services attended the celebrations at Yio Chu Kang Chapel Kindergarten. Each elderly were blessed with two mandarin oranges during the visit.

Mental Fitness Project

As part of the “Game for Mental Fitness” project between The Foundation of Rotary Clubs (Singapore) Ltd and U3A Singapore, clients at St Luke’s ElderCare Whampoa Centre became amongst the first in Singapore to play Rummikub, a tile-based game for two to four players. In this activity, each participant needs to form a set of at least three tiles in numerical running order or, in groups of same-value tiles in distinct colours. This simple-to-learn game can be played across various difficulty levels and provides an enjoyable way to keep the elderly mentally fit.

ENGAGING OUR COMMUNITY

iii. With Organisations

As part of the arts movement, Living with Dying – An Immersive Arts Experience, Yishun Centre participated in the puppetry performances that were specially crafted for seniors. This arts experience aimed to provide opportunities for the public to conduct open conversations about living and dying, contributing towards living well, and leaving well, with dignity. The arts movement was presented by Lien Foundation and Ang Chin Moh Foundation, produced by Drama Box & ArtsWok, and in collaboration with community partner, North-West Community Development Council.

iv. With Grassroots

Jurong East Centre hosted an early Hari Raya Puasa celebration for their clients on 25 July. Invited guests include four MAEC committee members of Yuhua RC Zone 5 & Zone 3, twelve Yuhua CC members who are line-dance enthusiasts, K1 and K2 students from PAP Community Foundation (Chai Chee), Jurong East neighbourhood support group and caregivers of the clients.

v. With Group Volunteers

We welcomed youth volunteers who conducted balloon sculpting sessions for our eldercare centres.

vi. With Individual Volunteers

84-year-old Mdm Low, our volunteer with Tampines Centre, was acknowledged for her work and dedication, at a tea session hosted by the President at the Istana on 8 December. When asked to describe her passion for volunteering, she says, "The clients are just like family to me and I will keep volunteering until I am unable to." Volunteers like Mdm Low are truly an inspiration to all of us.

VOLUNTEER TRAININGS

To further equip our volunteers with elder care knowledge, we continue to provide modules on caring for the elderly such as communication with the elderly, basic transferring skills and hand hygiene practices.

BUILDING CAPACITY FOR THE FUTURE

A continuous building upon existing resources enables us to enhance and innovate upon the delivery of services and programmes.

A. ENHANCEMENTS IN IT

In 2014, IT software and hardware improvements were put in place to enhance the front-end administration and customer experience, and in addition, support the efficiency of back-end operations.

Existing IT network and infrastructure were upgraded. More than half of the eldercare centres are now Wi-Fi enabled. Each centre is now able to experience enhanced and stable Internet connectivity.

Centre staff also commenced the usage of auto computation frameworks, to reduce the number of manpower hours spent in manual computation. The framework also improved accuracy of computing data.

B. STRUCTURAL UPGRADING

Plans were set in place for Tampines and Clementi Centres to undergo renovation, and subsequently re-open as Senior Care Centres and Day Rehabilitation Centres, providing a range of enhanced services.

To facilitate more training sessions, we have converted and furnished a room at our Hougang Centre into a training classroom.

C. INCREASING STAFF CAPABILITIES & PRODUCTIVITY

i. Train-the-Trainer Programme

Care staff from various St Luke's ElderCare Centres participated in the Train-the-Trainer Programme over a period of two months. Topics such as Understanding Ageing, Communicating with Older Persons, Hygiene & Infection Control, Feeding Assistance, Safety & Fall Prevention, Use of Mobility Equipment, Transfers and Toileting Assistance, were studied in both theory and practical settings. Participants were placed in the elderly's shoes, through role-play and performed daily tasks such as picking up coins from the floor and reading the newspapers. These showed the difficulties that the elderly might face, with age-related issues such as a decline in vision or mobility.

ii. Drivers' Networking Session

The Drivers' Networking sessions were initiated and planned for once every quarter, as a platform to provide training, share ideas and best practices, build relationships and deliver refresher courses for our group of drivers.

Each day, more than 60 drivers ferry the elderly clients to and from their homes to the eldercare centres.

iii. Active Location Tracking System

To continuously improve services and productivity, Serangoon Centre, together with IRWave Pte Ltd and supported by the Agency of Integrated Care (AIC), initiated a pilot project, using the Active Location Tracking System.

The aim was to reduce administrative load and the man-hours spent guarding clients with a tendency to wander. This real-time location tracking system enabled staff to focus on more value-added caregiving activities and reduce manual attendance-taking.

End users gave feedback that the time saved helped to increase the amount of time for staff-client interaction.

STAFF AWARDS

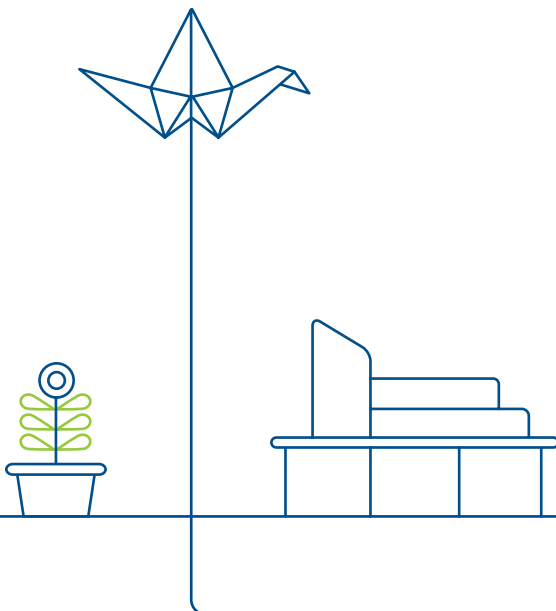

St Luke's ElderCare is continually committed to staff development and we're proud of our staff who have been recognized the past year.

ILTC EXCELLENCE AWARDS

Congratulations to our staff who have won the Service Quality Silver Award during the National Seminar on Productivity in Healthcare and ILTC Quality Festival 2014. They are: Anita Conriana, Chia Poh Choo, Pang Nyok Mok, Emmerline Tan Siew Choo, Chan Toh Yee, David Tan Wah Loon, Tee Len See, Yeo Bee Ngoh, Ng Li Li and Sim Siew Cher.

QUALIFYING EXAMS

2 Physio-Associates who sat for the PT Qualifying Exam have passed and were promoted to Physiotherapists. Congratulations to Shipra Shalini and Khin Swe Swe Htun!
