
About Us

Within the St Luke's eco-system, St Luke's ElderCare (SLEC) is placed in the continuum of care for the elderly between the community hospitals and homes.

We currently operate 22 eldercare centres islandwide. This number continues to grow as SLEC seeks to match the growing needs of the senior community by welcoming another senior care centre, and a nursing home by 2020.

SLEC's integrated care is delivered through centre-based services, home-based services and community-based services which covers care services such as maintenance day care, dementia day care, home dietetics, home medical, and weekend respite.

The purpose is to actively engage our seniors in physical and mental activities to prepare them for successful ageing, maintain the functional levels of the elderly who have suffered physical disabilities as a result of stroke, fall or accidents, as well to provide care for the frail and lonely who have no one at home to look after them during working hours.

Home Medical

For frail and home-bound elders who are unable to utilize the services at the centres. A service that supports caregivers and less ambulant seniors.

Services offered include:

- Comprehensive Care Assessment
- Prescription of Acute and Chronic Medication
- Coordination of care between healthcare and social care providers

Home Nursing

For frail and home-bound elders who are unable to utilize the services at the centres. A service that supports caregivers and less ambulant seniors.

Services offered include:

- Comprehensive Care Assessment
 - Medicine Reconciliation and Packing
 - Nursing Procedures (eg. Urinary catheterisation, wound management, change of nasogastric tubes)
-

Home Personal Care

Providing personal care to an elder with conditions like dementia in the comfort of their home.

Provides personal care such as:

- Assistance in Activities of Daily Activities (eg. Toileting, dressing, eating, etc)
- Exercise prescribed by a qualified therapist
- Elder-sitting and Engagement in Cognitive Stimulating Activities

Home Therapy

Providing rehabilitation at your home to aid in the recovery of your functional abilities and improve mobility.

The services include:

- Home-Based Exercise Training
 - Home Environment Assessment
 - Home Physical Rehabilitation
-
